

# TECHNICAL RISK SERVICES

**YOUR RISK  
MANAGEMENT  
PARTNER**

## TECHNICAL RISK SERVICES

Technical Risk Services was established in 1988 and has developed to become one of the UK insurance industry's leading independent loss control surveyors and health & safety consultants.

The business has established a strong reputation for its positive, solution based approach backed by outstanding technical knowledge and strict quality controls and is now the partner of choice for a number of leading insurers, Lloyd's underwriters and insurance brokers.

### TRS Key Services

#### Health & Safety Policy Development

- Compliance with H&S legislation
- Setting up records regarding the client's organisation and formal arrangements for securing a safe and healthy workplace for employees
- Arrangements for consultation with employees
- A range of useful pro-forma documents for managing H&S issues including risk assessment forms, pre-employment medical questionnaires and monitoring checklists

#### Loss Control Surveys

- Employer's, Public and Products Liability
- Material Damage
- Post Loss
- Pre-cover
- Marketing

### **Safety Check**

- Overview of H&S documentation
- Walk-through inspection of working areas, plant and equipment to determine compliance with legislation
- Written report and prioritised recommendations

### **Risk Assessment**

- Risk Assessments undertaken in a wide range of subject areas including manual handling, hazardous substances, display screen workstations, machinery and fire safety

### **Accident Investigation Services**

- Inspection of the accident scene by a trained investigator
- Interview of witnesses
- Compilation of a comprehensive report outlining opinions on causation, civil and criminal liability and recommendations for remedial actions

### **Training**

A range of training courses which lead to qualifications that are accredited by the Institution of Occupational Safety & Health (IOSH) and the Chartered Institute of Environmental Health (CIEH).

Courses may be held on site or alternative venues and include:

- Basic H&S awareness
- Risk Assessment Techniques
- Stress Management
- Food Hygiene
- Provision of a range of fork lift truck operator courses by an RTITB accredited trainer

### **Food Hygiene Due Diligence Audits**

An audit of documentation and systems together with the provision of a written report with recommendations.
